

Code-Layout, Readability and Reusability

Date	04 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S. No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code.	Yes	Used Proper indentation throughout the code.
2	Proper File Structure	Files and folders are logically organized	Yes	Project organized into folders (templates, static, models, App.py)
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Variables use descriptive names (income, credit _score, prediction).
4	Function / Method Names	Functions are descriptively named	Yes	Functions are named clearly (predict () , preprocess _data ())
5	Code Comments	Inline and block comments explain log	Yes	Added comments for important logic.

6	Modular Design	Code is split into reusable functions/m	Yes	Separate modules for preprocessing , model, and UI.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Remove duplicate code and refused functions.
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Input validation and exception handling implemented.

Reusable Components / Modules:

S. No	Component/Module Name	Language/Technology	Where Reused	Reusability Level (High/Medium/Low)
1.	Login module	Python, Flask	User authentication	High
2.	Data preprocessing	Python, pandas	Dataset cleaning	High
3.	ML prediction model	Scikit-learn	Credit Card Prediction	High
4.	Result Dashboard	HTML, CSS, BOOTSTRAP	Prediction display	Medium
5.	Database module	SQLite/MySQL	Store use data	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure.
Readability	5	Easy to understand and maintain.
Reusability	5	Modules can be reused in similar ML projects.
Documentation / Comments	4	Adequate comments provided.
Overall Score	5/5	Good coding standards followed.
